Note on List Purpose and Method:
The NASPA Annual Conference offers many learning opportunities, which may create navigational challenges. The Faculty Council created this guide for those in the Faculty Assembly planning their conference experience. To avoid a lengthy list, we discerned sessions directly related to graduate students and faculty in student affairs preparation programs—not a simple distinction. For example, conference sessions cover academy’s breadth: graduate students in all disciplines, including graduate students in student affairs preparation; faculty in all disciplines, including faculty in student affairs preparation; pedagogy, including pedagogy in student affairs preparation. We limited the list to include only graduate students, faculty, and pedagogy in student affairs preparation. Finally, we included all sessions about publishing.
