Introduction

The NASPA Foundation’s strategic plan for 2012-2017 was developed through a comprehensive, intentional, and inclusive planning effort of which the capstone event was an intensive 1.5-day retreat for members of the Foundation’s Board of Directors in Dallas, TX on January 29-30, 2012. Keeling & Associates, LLC (K&A), the Foundation’s consultants, facilitated discussion at the retreat, and prepared a first draft of the plan based on agreements reached and decisions made during the retreat. Members of the Board’s Executive Committee reviewed and affirmed that draft, making only a few minor changes. This final version was reviewed and approved by the Board at their meeting on March 10, 2012.

The plan, which is built upon the goals, objectives, and overarching principles developed by the Board, will guide the Foundation’s work in support of and collaboration with NASPA: Student Affairs Administrators in Higher Education. It will provide context, structure, and rationale for its continuing efforts to promote quality in scholarship and practice, ensure organizational sustainability, and increase success in fund-raising.

Context

The development of the Foundation’s strategic plan for 2012-2017 occurred in the context of several key events and opportunities:

- The completion, in fall 2011, of NASPA’s own new five-year strategic plan.
The March 15, 2012 transition in both NASPA's executive leadership and its organizational model.

The need to clearly define a strategic, goal-oriented relationship between NASPA and the NASPA Foundation.

The opportunity to revisit and update Foundation’s mission, direction, and priorities.

The need to develop a clear agenda and priorities for both fundraising and the expenditure of Foundation dollars.

**Method and Timeline**

Below is a summary of the strategic planning activities:

- **Preliminary Data Collection:** In early November 2011, K&A (1) reviewed materials, resources, and data to identify potential issues, concerns, opportunities, and challenges pertinent to the strategic planning process; (2) conducted preliminary telephone interviews with eight selected officers and members of the Board; and (3) developed tentative planning themes based on those reviews and interviews.

- **Survey of Board Members:** In December 2011, K&A developed a brief online survey of members of the Board to identify and begin to prioritize planning questions and issues. After the Chair of the Foundation Board approved its content, the survey was implemented in early January 2012, and received 13 responses.

- **Strategic Planning Retreat:** On January 29-30, 2012, K&A facilitated a 1.5-day strategic planning retreat at the DFW Grand Hyatt Hotel in Dallas, TX attended by 19 of the 21 members of the Foundation’s Board. The retreat encompassed a number of pertinent and necessary planning activities, including: (1) a review of strategic planning methods and frameworks; (2) a report on findings from the telephone interviews and survey; and (3) small group work and large group discussions in which participants refined the Foundation’s mission statement and developed draft goals and objectives.
Strategic Plan: Working with the Executive Committee of the Board, K&A prepared and revised first and final drafts of the strategic plan. This final version of the plan has been reviewed and approved by the Board at its regular meeting on March 10, 2012.

Preamble

The NASPA Foundation advances NASPA and the student affairs profession by raising funds that are used to celebrate achievement, support meaningful research and emergent practices, and honor the legacy of NASPA and of Student Affairs leaders, scholars, and practitioners. By both supporting young scholars and recognizing the importance and impact of the work of distinguished Student Affairs practitioners, the Foundation connects the past and present to the future and infuses a spirit of gratitude and giving among NASPA’s membership.

Mission Statement

The mission of the NASPA Foundation is to raise funds to advance NASPA’s mission and legacy.
Goals and Objectives

Goal 1: *Increase substantially the Foundation’s capacity to be a dynamic and sustainable organization.*

Goal 1 Objectives:
