Discussion Items

*** Thank you to the NASPA staff for their attention and diligence in addressing the concerns regarding the previous email system. The updates are working very well and are a huge improvement!*

Action Items

There are no action items within my report that require a Board motion or Board vote during the meeting.

Goal A: To provide professional development to our members through the creation and dissemination of high quality experiences, information and exemplary models of practice.

Vermont

- **Sophie Blanco** (University of Vermont) and **John Maggs** (Castleton State College) have been appointed Co-Directors to fill the remaining year term for State Director.
- They are actively seeking representatives for the state membership for their Board and have recently completed a Vermont State NASPA Facebook page.
- They are working on starting a book discussion club via conference call, which will make it easier for the northern and southern schools to connect.

Connecticut

- State Director **Cheryl Barnard** (St. Joseph College) reports two events occurred in CT during the month of December. The first was entitled "How I Meet My Career" which was attended by approximately 30 undergraduate students in the state. The conference which was graciously hosted by Quinnipiac University, and provided students who had an interest in student affairs with personal stories from current student affairs professionals about how they found their way into the profession, the types of positions available within student affairs and how one goes about getting their foot in the door via graduate school or non-master level positions. Feedback on the event was excellent and the State Board feels that this will become a yearly event. The second event held in December was a Holiday Social which was held in the Hartford area.
- During January, the State Board is hosting two programs to assist NASPA members in getting ready for the National Conference and the Placement Exchange. The State Board is reviewing resumes of anyone in the state who would like to have another pair of "eyes" look at their materials. To date we have had 13 resumes submitted and reviewed. This service ends on February 1st. On February 12, the State will be hosting a Mock Placement Exchange (MPE). The goal of MPE is to have candidates relieve some fears that come with attending a national search including the setup, the day, the time commitments. The participants will have the chance to have numerous mock interviews for types of positions that they are thinking about applying for, and get good feedback on what they are doing well and areas for improvement.

Massachusetts

- State Director **Laura De Veau** (Mount Ida College) reports the state meeting at the NASPA Region I program was a tremendous success with over 300 in attendance. The meeting ran smoothly, was seen as informative and was utilized to gain feedback for future programs and initiatives. The highlight was our state awards program where we recognized four of the state's most outstanding professionals and the program of the year.
- In the first week of February, we offered a drive-in on the topic "the changing landscape in college mental health". Despite being held after what seemed to be our umpteenth snow storm of the season, we had over 20 mental health and student affairs professionals in attendance. The tone of the summit was casual and informative, and we're compiling feedback to keep the momentum going on furthering the dialogue regarding this topic.

- MA NASPA is organizing a TPE preparation event to be held on Saturday, February 26 at Mount Ida College. This will be an all-day event that will allow for graduate students and new professionals to learn about the TPE program as well as participate in mock interviews and resume critiques a few weeks prior to TPE in Philadelphia.

Maine

- State Director **Jennifer DeBurro** (University of New England) reports an 'End of Semester' Social was hosted by the Maine Association of Student Affairs Professionals (MASAP) on December 18th at Sebago Brewing Company in South Portland. The event proved a relaxing break from both the activity on our campuses as well as the hustle and bustle of holiday preparations! Future social events will include a night at the Maine Roller Derby on February 12th and an evening of bowling (date to be determined) which will be geared specifically towards new professionals and graduate students. The addition of a Maine Student Affairs Social page to Facebook has permitted a new avenue through which such events are being advertised.
- Two events geared towards undergraduate students took place during the month of January, one hosted by the University of Maine Orono and the other by the University of New England. The UMaine event, which drew 193 students, featured keynote speaker Joe Urbanski of Collegiate Empowerment. The event at UNE drew 146 participants and featured keynote speaker Nicholas Mirabello of URock Marketing. Both events included break out sessions and networking opportunities.
- A recent survey of professionals in Maine indicated that there is an interest in reflecting on the role Student Affairs plays on our respective campuses and how we are, or can be, communicating about and advocating for the work we do throughout the rest of the academy. As a result, MASAP's annual spring summit, which is tentatively slated to take place on April 15th, will address this issue. Our featured speaker and summit schedule will be released shortly.

New Hampshire

- State Director **Tim Keefe (Plymouth State University)** sends greetings from the cold, snowy mountains of New Hampshire! For those schools with winter terms, the semester has just gotten started and the action is fast and furious. We have a number of new folks who have expressed interest in "getting involved" with NASPA, many thanks to our State meeting at the Regional Conference.
- Calls for nomination have just gone out for the State Director's position in New Hampshire. Anyone who would like to learn more is encouraged to contact the current State Director, Tim Keefe, Dean of Students at Plymouth State University at (603) 535-2206 or timk@plymouth.edu.
- The "KISSA" program is gaining momentum (Keep It Simple Student Affairs), with schools inviting colleagues to join them at their respective institutions for professional development opportunities, such as speakers, webinars, etc. It's great to see collaboration and cost savings with this simple approach.

Rhode Island

- State Director **Judy Kawamoto** (Bryant University) reports this past fall saw several great things in the Ocean State. An updated membership directory was developed and distributed electronically to the membership
- A successful "Partnership for the Future" shadowing program was implemented in October.
- Rhode Island had nominations in every category this year for our state awards, which was an improvement over last year!
- They also hosted a Holiday Social on December 9, and had 25 – 30 people in attendance. It was a really great way to end the semester, and of course the food at Johnson & Wales was fantastic!! They also collected 20 blankets that were donated to Camp Street Community Ministries in Providence.
- The members of the Rhode Island Advisory Board recently participated in a conference call, and we will be meeting on Friday, February 11th at Bryant University to plan future events and opportunities for the state membership. CAT helps students to become involved in meaningful ongoing issues within Montreal. Hidden Gems matches students with community elders, in order to create radio plays based on those elders' lives.
- Mental Health Services' Eating Disorder Program (EDP) is continuing to grow and maintains its position as a groundbreaking program within a University setting.
- Plans are in the making for a Leadership Centre within Student Services. It would expand students' opportunities for leadership development, a serious asset in today's society.
